

Why do I like to get my camera equipment from Clairmont?

Because I know and like the people who work there, and have a long relationship with them. They go out of their way to make sure I get the gear I need.

Because I know the equipment will be new, well-serviced, and backed up by a large inventory.

Because they buy the newest film and HD equipment, and often modify it to work better than when it comes straight from the manufacturer.

Because Clairmont has been very helpful in educating my colleagues and me on the newest digital equipment - demonstrating both the benefits and limitations, and giving us an honest assessment of what they like and don't like.

Whether a project calls for film or digital, 16 or 35 mm, high budget or low, Clairmont has always been very supportive. And support is something we all appreciate, whether from production, crew, or rental house.

I would like to thank Denny and everyone at Clairmont Camera for all the help and support they've given me over the years.

Michael Bonvillain, ASC
